**Short Term E-Tender No. 48/E. Workshop C./MRT/2024-25****SCOPE OF WORK:**

It is proposed to “**Repairing of Damaged Transformer of capacity 10 KVA To 250 KVA in the premises of Electricity Transformer Repair Workshop, Hapur.** The scope of work includes handling and dragging of damaged distribution transformers, pre checking & testing of damaged transformer before dismantling & making proper record in register by engaging a technical person, cutting/opening top cover, plates, draining out of oil into drums/tank, dismantling of core and coil assembly, making of LV and HV leg coils, assembly of core and coil and fitting of the parts, shifting and keeping in oven, dragging of transformers tank, repairing of damaged T/F body/radiator, painting of inner side, taking out core and coils assembly from the oven welding tightening the cop cover, punching and welding of plate and fill some information. All the material required for repairing of transformers shall be arranged by the Corporation except Paint & Sundry items like Gas cutter & regulators, Oxygen cylinder, LPG Cylinder, welding electrodes & cotton waste, Primer, Paint and brush & **Air compressor with spray gun, pipe shall be arranged by contractor for painting work etc.** which will be arranged by the contractor at their own cost. T&P like 'D-Spanner Set, Ring Spanner Set, Box Spanner Set, Pipe Wrench, outer caliper, inner caliper, hammers (or any other T&P required) etc. in sufficient quantities of different sizes is to be arranged by contractor itself for repairing of transformers at his own cost. The proposed work shall be carried out under the supervision of concerning **Executive Engineer, Electricity Workshop Division** or his authorized representative.

**SPECIAL CONDITION AGAINST SHORT TERM TENDER No. 48/E.Workshop C./MRT/2024-25**

These special Terms & conditions shall be read along with general condition of UPPCL forms A &B. In case of any contradiction these special conditions shall prevail.

1. Following works are to be carried out under the scope of this agreement/ specification:

- i. Safe shifting of damaged transformers of capacity **10 KVA To 250 KVA** from stack yard to repairing hall of the workshop by dragging carefully & handling properly without any damage & loss to the transformer.
- ii. The top cover plate shall be opened & the core assembly along with coils shall be removed from the transformer tank after of HT & LT connections, bushing rods & bushing, without causing any damage to leg coils and other associated parts of T/F. To drain out & collect the re-useable/ burnt transformer oil into empty drums/oil tank & proper stacking of these drums inside the store in the premises of .....
- iii. Reconditioning LT leg Coils: The damaged LT leg coils shall be removed without any further damage to the remaining HT/LT leg coils as well as to the core. The LT coil strip shall be cleaned by removing old/heated DPC insulation shall be recoiled as per the original dimensions & similar to the other healthy LT coils of the same transformers in terms of I.D. O.D. window height and number of turns.
- iv. Reconditioning of HT leg Coils: The damaged HT leg coils shall be removed carefully & fresh coils of original dimensions shall be wound with available healthy coils after putting proper inter layer insulation, shall be recoiled as per the original dimension and similar to the other healthy HT coils of the same transformer in terms of ID, OD Axial length & number of terms.
- v. The complete core & coil assembly shall be shifted from assembly place to the heating chamber without any mechanical injury to the assembly.
- vi. The tank of the T/F shall be shifted from repairing hall to the open yard & it shall be cleaned properly to remove old oil spots and dust/ rust to get a clean outer surface as well as inner side of Transformer tank.
- vii. The tank as (vi) above shall be shifted to the repairing area. The core and coil assembly kept in chamber shall be taken out and tanked into the tank safely. Top cover plate of the T/F shall be fixed after proper locking of the assembly as per instructions of concerned JE/SDO with double nuts.
- viii. Filling of fresh / centrifuged/reclaimed transformer oil. Providing the T/F ready for test. Testing for all routine tests as per relevant ISS.

- ix. After cleaning the inner and outer surface of T/F the same should be painted with zinc chromate primer paint and the outer surface of complete T/F shall be painted with two coats of grey/ pastel yellow paint of ISI mark. It will be ensured that the paint spots on the bushing shall be removed with the solvent and bushing shall be made free from paint spot, mark of identification for repairing unit shall be painted as per instructions of JE/SDO Workshop. All the material required for painting will be arranged by the contractor at their own cost.
  - x. Free electric power shall be provided by the Corporation to carry out above works inside the Workshop. All required materials for repair/ reconditioning of HT/LT coil and assembly transformers like insulated craft paper, press board, Bakelite tube, strip, blocks, delta wire, bushings, bushing rods, oil seals, gaskets, washers, cotton tape, webbing tape, glue silted paper for covering of wires/ strips for repairing of transformer & other required material shall be provided by the Corporation to the contractor.
  - xi. Punching and welding of M.S. plate of 100x50x3 mm should be welded on the repaired transformer bearing following details clearly written on it. (1) Name of repairing unit (2) Date of energization of repaired T/F (3) Expiry date of guarantee period. The steel plate will be arranged by the Contractor.
- 2. Fully repaired transformer shall be guaranteed for satisfactory performance for the period of 15 months from the date of repair and 12 months from the date of energization whichever is earlier. Any fault occurs during the guarantee period, the same shall be repaired/rectified free of charge within one month from the date of receipt of T/F in Workshop. Guarantee may be decided by the estimation whether, it is fully repaired or partly repaired transformer.
  - 3. The contractor shall be given stock material by the P.V.V.N.L. representative for each job which will be acknowledged and arrange to submit detail utilization of material used on the work and balance return to store immediately after completion of each work.
  - 4. In case of any leakage from Radiator of T/F, The Contractor will make arrangement for Gas welding of Transformer Radiators with the help of Gas Welding and all other accosted accessories at his own cost.
  - 5. The contractor shall be entirely responsible for safe upkeep of the materials given to him till completion of work to the satisfaction of the P.V.V.N.L./UPPCL representative for final accounting. The material shall be kept within the premises of W/S safely decided by the supervising authority.
  - 6. The contractor shall be solely responsible for any accident to the persons working with/under him and shall have to pay due compensation in accordance with the prevailing rules/regulations of Govt. Contractor shall arrange to have group insurance for labours engaged by him and shall have to pay due compensation in accordance with the same. The Corporation will bear no responsibility for the compensation to his labour in case of any accident.
  - 7. No compensation for idle labours shall be admissible to the contractor on account of stopping of work due to non-availability of any material/ fund or any other force majeure conditions beyond the control of the Corporation. However, the contractor shall be given necessary extension in completion period accordingly.
  - 8. The quantity of each size of the transformer as given in the bill of quantity as annexed are tentative and estimated which may vary upto any extent either side without ceiling according to it's availability at the time of execution of work but within the limit of the contract value.
  - 9. All the machinery & testing equipments which are used in repairing of T/F like overhead crane, LT & HT covering machine, Filter machine, all testing equipments and other things which are available in W/S shall be provided to the contractor by the P.V.V.N.L.
  - 10. All the technical works covered under this specification, shall be carried out by well trained workmen.
